A packet of the readings will be provided to each student in the first class. Students must obtain the readings for the first class on their own and are encouraged to buy Transforming Narcissism. I will be glad to purchase copies at a discounted price for anyone asking me to do so before the first class session. Other readings may be added in response to the needs and interests of the class. The points listed do not indicate classes. Some topics will last longer than 1 or 2 classes some less. Case discussions will be interspersed with all the classes. Students are invited and encouraged to bring in case material in connection with the topics discussed.
