NEW YORK NANOSCIENCE DISTUSSION GROUP

Tuesday, June 11, 2019
Silver Room 1003
Refreshments: 7:00 p.m.
Science: 7:30 – 9:00 p.m.

Speakers – not necessarily in this order:

**André Taylor**
New York University Tandon School of Engineering
Department of Chemical and Biological Engineering

*Colorful Organic Solar Cells Employing Förster Resonance Energy Transfer*

**Angiolina Comotti**
University of Milano-Bicocca
Department of Materials Science

*Dynamics of Gases and Molecular Rotors in Nanoporous Materials*

**Ned Seeman**
New York University
Department of Chemistry

*Semantomorphic Science with DNA*

Sessions feature three 30-minute presentations on nanoscience, one each with strong orientation in biology, chemistry, and physics/applied mathematics. Presentations will be focused on discussion of recent work, although speakers will be expected to place the work in a context understandable to a broad audience.
