Wilf Family Department of Politics
MA Program

Application for Reading and Research

A Reading and Research course (i.e. an independent study) is meant to supplement your formal coursework. Before registering for a Reading and Research, you must have a faculty sponsor for the course. You and the faculty sponsor must agree upon a description of the research to be conducted in conjunction with the course and what work will be submitted for evaluation.

Please provide a one paragraph description of the proposed research and return this form with the signature of the faculty sponsor to the Graduate Politics Office for approval. Upon approval, you may register on Albert for POL-GA 3991 (or POL-GA 3992 if this is your second Reading and Research). After the completion of your research, the faculty sponsor should forward your grade to Graduate Politics Office for posting.
