

## NYU Sociology Honors Program Application Form

To apply for the Honors Program in Sociology, please submit this form *and* a separate description of your research interests in sociology. This description should (1) indicate the fields in sociology that most interest you (e.g., racial inequality or cultural change) and (2) within each of those fields identify topics that you believe could serve as a starting point for your research (e.g., “what aspects of racial inequality are independent of economic differences?” or “how has modern social media changed the diffusion of youth culture across nations?”). Please be as specific as possible. This description of interests will ideally fit on one single-spaced page, but please do not exceed three pages at most. (Note that the descriptions of interests do not limit what topics students choose to pursue for their theses; we expect students’ ideas and interests to develop and change).
